Tom Dombrowsky is a Senior Engineering Advisor with the law firm Wiley Rein LLP where he provides technical advice and guidance to clients concerning wireless spectrum matters. In particular, Mr. Dombrowsky specializes in spectrum policy matters, especially with respect to issues that affect commercial mobile service providers. Specifically, he has worked extensively with clients on government allocation and licensing of electromagnetic spectrum and advised a variety of wireless provider and manufacturer clients on technical issues associated with spectrum-related matters.

Over the past few years, Mr. Dombrowsky has been involved heavily in the National Broadband Plan spectrum reallocation discussions, including the Mobile Satellite Service (“MSS”) proceedings and the recent proceedings concerning the reallocation of additional TV broadcast spectrum for mobile broadband services. Mr. Dombrowsky has spoken at a number of technical conferences concerning each of these matters through the years, and is recognized as a technical expert with respect to wireless/spectrum issues. Mr. Dombrowsky is a member of the Commerce Spectrum Management Advisory Committee (“CSMAC”) that advises the Assistant Secretary for Communications and Information at NTIA on a broad range of spectrum policy issues.

Prior to joining Wiley Rein, Mr. Dombrowsky held several positions within the Federal Communications Commission’s Wireless Telecommunications and Private Radio Bureaus. During this time, Mr. Dombrowsky focused on commercial mobile spectrum policy and licensing matters. Mr. Dombrowsky has a Bachelor of Science in Electrical Engineering from Lehigh University.
